Suggested Commitment: \$2,500

Meet AWSA

The Association of Wisconsin School Administrators (AWSA) is the professional organization of the state's elementary, middle and high school principals and administrative leaders. AWSA provides its members with legislative representation, a first-rate professional development program and an array of services which strengthen and uphold educational leadership. AWSA represents over 2,000 principals, associate principals and other education leaders throughout Wisconsin.

The Wisconsin Foundation for Educational Administration has been established to support all of AWSA's professional development programs in order to advance educational leadership for the benefit of the students of Wisconsin.

Build Relationships

At AWSA, we know that relationships are important to success, so the Corporate Support Program is designed to help organizations develop solid and sustainable connections with education leaders that will be mutually beneficial.

This program operates with a one year renewable contract, providing opportunities for connections with principals throughout the year.

Support Public Education

AWSA recognizes that effective public education is enhanced by business partnerships that support learning. Our members are always looking for information about products and services that will help them to lead their schools in ways that are cost-effective, productive and equitable.

WFEA utilizes Corporate Support dollars to help fund an array of professional development programs that serve more than twenty-four hundred participants each year. The Corporate Support Program contributes to WFEA's mission to enhance the professional growth and competency of school administrators for the purpose of improving the quality of educational opportunities for the youth of Wisconsin.

Where the Dollars Go

Corporate Support revenues are used by AWSA to assist in our mission of increasing the knowledge of our members in order to provide the best possible leadership to schools and the children they serve. Corporate Support dollars are used to fund AWSA's Professional Development Program.

The program also supports the Aspiring Administrator Program which encourages top-notch teachers to consider a career in educational administration.

AWSA's highly-regarded professional development program brings top-notch educators, researchers and academics to Wisconsin for conventions and conferences. Today's tough education issues are discussed, disassembled and solutions sought. It is only through this exchange of information and ideas that all children will one day receive the best possible opportunities.

The Corporate Support Program is operated through the WFEA, the foundation through which AWSA's professional development activities are funded.
