# ESSA Opportunity Provides Coherence for and Builds the Capacity of Wisconsin School Leaders

The Every Student Succeeds Act—better known as ESSA—provided new opportunities for states to use Title II, Part A funds to invest in school and district leadership and support. This presents states, like Wisconsin, with the ability to invest a portion of Title II, Part A funds for school leadership activities.

In Wisconsin, the DPI is using this opportunity to build the capacity of school leaders through a collaborative partnership to ensure all students graduate college and career ready.

This effort will provide learning opportunities along three tiers of professional learning to systematically enhance the leadership capacity throughout the state:

Tier 1: “Conferences” provide professional learning, information and networking opportunities across the administrator standards (breadth).

Tier 2: “Academies” provide focused training on targeted pillars and related high-leverage practices and competencies for leaders (depth).

Tier 3: “Coaching” to further equip leaders with tools and strategies to lead effectively (reflection).

## ESSA Support at Tier 1: Coherence Building

The Wisconsin Department of Public Instruction, CESA Statewide Network, Wisconsin Association of School District Administrators, and the Association of Wisconsin School Administrators are working collaboratively to provide coherent professional learning for Wisconsin’s educators.

Beginning this year, the partners will transition three stand-alone professional learning activities into a coherent, jointly-planned conference series called The Wisconsin Leading for Learning Series. This approach was designed in response to strong input from the field encouraging state and regional organizations to better coordinate events. Professional learning that uses common language, coordinates support, and helps to “connect the dots” on emerging initiatives, research, and practices allows for a better focus on what matters most – the students of Wisconsin.

This year the QE Convention, Data Summit, and the Innovations in Equity Conference will be combined into the Leading for Learning Summit which will be taking place June 26-28, 2019. This annual convening will be fully integrated with the WOW series that delivers simultaneous professional development to educator teams in each CESA throughout the year.

The Wisconsin Leading for Learning Series will address three tenets: 1) Supporting Educator Practice, 2) Leading for Equity, and 3) Providing Safe, Supportive and Rigorous School Cultures.

## ESSA Support at Tier 2: Capacity Building

Wisconsin school leaders will be reimbursed up to 75% of the registration fee and will not be less than 50% for completing an Academy. In 2019-20 approved Academies include:

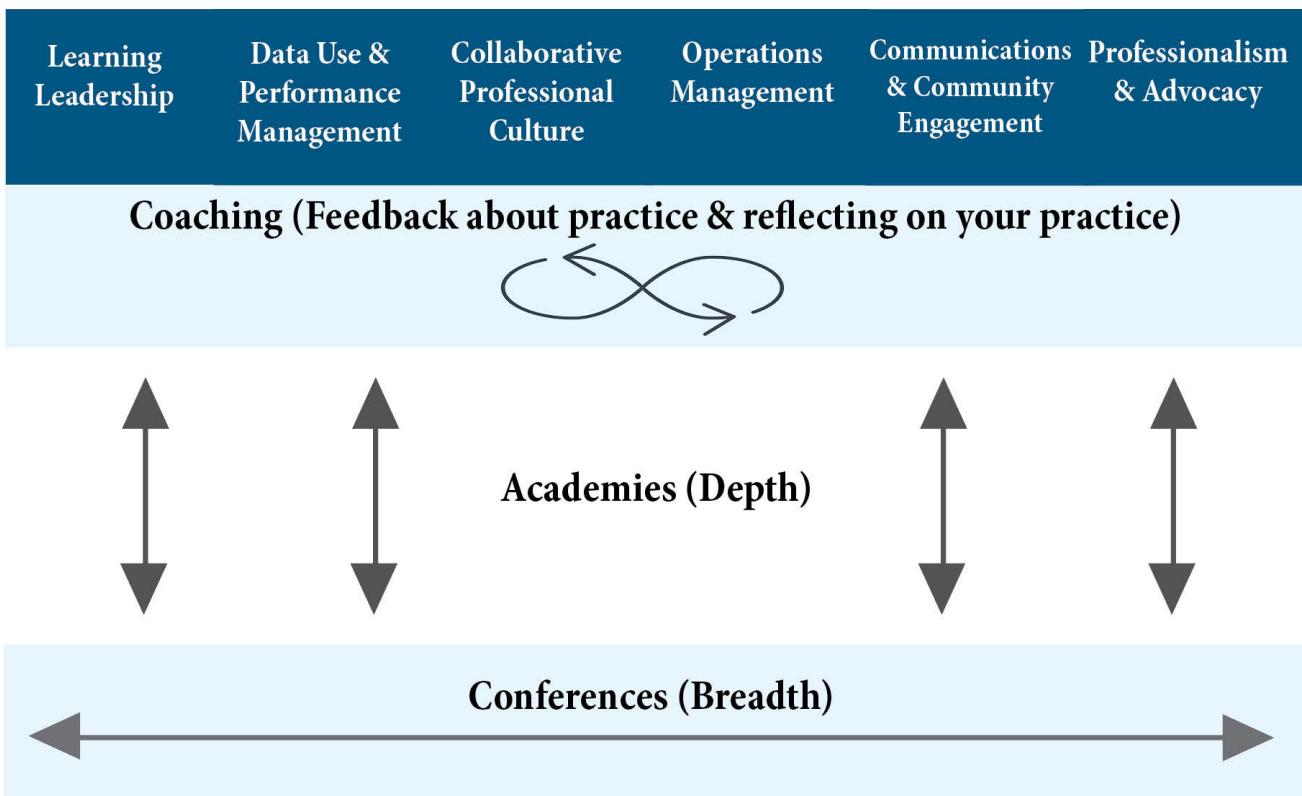

- [New Building Administrators Academy \(Page 9\)](#)
- [SAIL Academy \(Page 10\)](#)
- [Leading for Equity Academy \(Page 11\)](#)
- [Impactful Coaching Academy \(Page 12\)](#)

- [Supporting Principal Excellence \(Page 16\)](#)
- [Building Effective Leadership Academy \(Page 17\)](#)
- [Mental Health and Resilience Academy \(Page 18\)](#)

Reimbursement is limited and will be honored on a first-come, first-served basis and eligibility is limited to licensed and practicing public or private school administrators. Registration must be paid in full by November 30, 2019. Reimbursements will be processed at the completion of the Academy.

## ESSA Support at Tier 3: Coaching for School Leaders

School leaders who attend the New Building Administrators Academy or the Building Effective Leadership Academy will be able to work with a certified coach. The cost of this high-quality coaching will be supported through this collaborative partnership. In addition, all participants of the SAIL Academy will benefit from a coach assigned to their team.

# AWSA Academies: Focused, In-Depth Learning

## Which academy is right for me?

Over time at AWSA, we have developed a number of academies that provide a depth of learning and growth for education leaders in the most complex areas of the work. Each of these academies involves a series of sessions designed to help participants engage deeply in their learning, with enough opportunity to apply and integrate what they are learning throughout the series so that such efforts can meaningfully take hold in local leadership action.

Given many leadership demands, choosing the most appropriate route for deep learning and support can often present considerable challenge. We have designed the following table to help leaders think through their greatest local needs and then consider the AWSA academy that would best address that need.

If your identified need is _____,	Then consider the ____.
A) Gaining support and coaching as an administrator in your first year of service.	New Building Administrators Academy
B) Building focus and coherence of your system's improvement agenda and related short-term cycles of intentional action, leading to significant adult practice and student achievement gains.	School Administrators Institute for Transformational Leadership (SAIL)

# SAIL Academy

School Administrators Institute for Transformational Leadership

One of the greatest challenges in education is to maintain focus on what matters most for student learning amid the daily demands of the job and within an environment of unprecedented expectations for student results. Yet within this context, research asserts the importance of concentrated and sustained effort: schools that focus and develop deep knowledge and skill on a “vital few” improvement strategies outperform those that lack focus.

SAIL is designed to assist school and district leadership teams in creating a coherent and connected plan for transforming education at the local level within a complex environment, and in the process, instill confidence throughout the system for powerfully moving forward.

The continuous improvement process learned during this academy also meets legal requirements under:

- Every Student Succeeds Act (ESSA) for identified schools (ATSI, TSI, CSI)
- Individuals with Disabilities Education Act (IDEA) for identified districts (Needs Assistance and/or racial disproportionality in special education identification, discipline, placement)

Your team may submit work, if required, focused on the identified area and completed during this academy as evidence of compliance by October 31, 2019.

## Knowledge Objectives:

1. Demonstrate foundational knowledge of coherence components that build deep organizational impact.
2. Identify and address root cause problems of practice at the instructional, organizational, and leadership levels.
3. Examine how long-term phases of change can inform and guide short-term implementation and inquiry cycles.

## Practice Objectives:

1. Move organizational practice to the *accelerating* level or beyond in a minimum of four components of the Coherence Progression (Fullan and Quinn, 2016).
2. Develop and advance one or more 100-day implementation and monitoring action plans with milestones meeting 70% or more of the identified quality indicators.
3. Develop one or more adult learning frameworks meeting quality indicators in an area of instructional focus.

## Dates and Locations:

SAIL is a two-year, cohort program. Those districts/schools/team members registering are making a commitment to the SAIL program and to other cohort teams for the full two years of the program, starting June 2019.

# Leading for Equity Academy

In order for Wisconsin's students to be prepared for their futures and Wisconsin's communities to remain strong in a global economy, it is imperative that all students graduate college and career ready. The Leading for Equity Academy (LEA) is a team-based offering that will engage you in a deep analysis of your school/district so that you are equipped to thoughtfully address complex problems of equity and effectively action plan next steps to tackle persistent -- but not insurmountable -- achievement gaps, however they are manifested within your local community. The blended and distributed learning session design of this academy fosters application of learning and related plans with timely opportunities for reflection and adjustments as participants cultivate sustainable practices and mindsets back home. The overall goal of the LEA is to help leaders across Wisconsin provide schools of equity and excellence for their communities.

In addition, if participants implement the continuous improvement process learned during this academy, then it meets state requirements for a school learning objective under Educator Effectiveness.

# Building Effective Leadership Academy

New Offering!

Participants of AWSA's New Building Administrators Academy (NBAA) regularly provide strong feedback, where more than 90% attest to the positive impact that the NBAA's timely, tailored, and relevant cohort learning approach has had upon the launching of their administrative careers in year one.

The Building Effective Leadership (BEL) Academy is designed to support principals and associate principals through a similar cohort approach three times during the school year for relevant, ongoing professional learning specifically designed for leaders serving in years 2-5 who want an **integrated, cohort approach** to leadership development rather than a deep dive into a specific area of the work that is typically provided by one of our existing AWSA Academies. Research shows that the greatest amount of principal turnover occurs during these crucial early years. The BEL Academy is focused on not just helping a leader *survive* this critical career window, but *thrive* as an effective and balanced learning leader who is developing a learning organization.

Please note: although the BEL Academy is targeted for supporting leaders in years 2-5 of their administrative journey, this academy is open to any experienced administrator who wants to meet the following objectives through BEL's cohort approach.

# School and District Workshops

Bringing Professional Leadership to Your Door

There may be times when traveling to a workshop or conference doesn't fit your leadership or budget needs.

That's why Joe Schroeder and Tammy Gibbons have developed half-day and full-day workshops to take to your school, district, athletic conference, or local principals' group.

During these workshops you will work on developing, creating, analyzing and sustaining leadership practices and systems in which teachers and students will be supported and successful. These workshops are interactive, informative, and go beyond "sit and get" by engaging AWSA members in the opportunities and challenges they are facing today, with results that will continue tomorrow and into the future.

Available workshops with Tammy:

- Developing a Coaching Mindset
- Teacher Leaders Development
- Implementation Planning
- Assessment and Grading Strategies

Available workshops with Joe:

- Managing to Lead
- Teacher / Principal Effectiveness
- Succeeding as a Change Leader in Changing Times
- Growing and Focusing Your Staff
- Motivating and Engaging Every Student: Where Success for All Begins

## Information

### AWSA Update Bulletin

AWSA's Update Bulletin is our electronic newsletter, emailed to members every other week. The bulletin contains up-to-date state news, professional articles, DPI news, legal updates, and professional development opportunities.

The Update is available in Elementary, Secondary, and District editions to best suit your needs and interests. The most current Update and archived articles can be found at [www.awsaw.org](http://www.awsaw.org).

### Wisconsin Education News

A daily compilation of news stories is sent right to your inbox, Monday through Friday, giving you a statewide perspective on legal, budgetary, and regulatory issues, as well as success stories and award-winning programs.

The Wisconsin Education News is also posted daily on the AWSA website.

Once a month, AWSA brings you the **MAIN IDEA** which creates an 8-page summary of a current education book each month. This summary contains the core ideas of the book, and organizes those ideas with enough accompanying details and examples so you can have a working knowledge of its content.

At the end, **THE MAIN IDEA** includes a full page of suggestions for ways to use the ideas in the book for professional development of your staff.

### Marshall Memo

Every week AWSA brings you the *Marshall Memo*. Published since 2003, it is designed to keep principals and other educators well-informed on current research and best practices in the field. Kim Marshall, drawing on his experience as a teacher, principal, central office administrator, consultant, and writer, lightens the load of busy educators by serving as their "designated reader."

To produce the *Marshall Memo*, Kim subscribes to 44 carefully-chosen publications and looks through scores of articles each week to select 5-10 that have the greatest potential to improve teaching, leadership, and learning. He then writes a brief summary of each article, provides links to full articles when available, and highlights a few striking quotes.

# Information, Networking, & Communications Support

## Networking

Providing opportunities for busy leaders to network is important to us at AWSA. Google Communities are provided to members as a venue to pose a question, learn from others and engage with principals across our state. Join any one of the existing communities and begin networking today!

## Communications Support

Effective school leaders engage stakeholders in meaningful ways to promote student success. The following resources support you in this important work.

### Crisis Communications

One of the most important aspects of dealing with a crisis is knowing what to communicate, along with to whom and how. With this in mind, the Donovan Group, an education-focused communications firm, provides crisis communications support to AWSA members. The AWSA website includes information related to contacting the Donovan Group and comprehensive resources for communicating in crisis situations.

### Communication Tools

Are you maximizing your website, social media and other communications tools to engage key stakeholders in support of your students? AWSA provides communication tools to help you assess your communication strengths and help identify areas of growth. We will provide you with information about how to improve your communications efforts, consider current communications practices, and select the tools needed to help make the effort easier.
