

Below are the preliminary results from AWSA's 2021 State Assessment Survey. We have included results from questions 1, 2, 3, 4, 5, 7, and 8. A white space in a pie chart indicates answers that were less than a fraction of a percent.

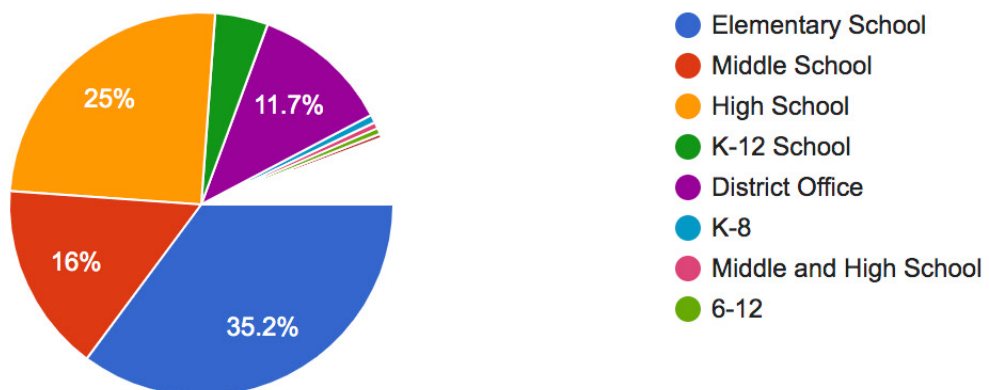

1. What is the primary instructional model for your school currently?

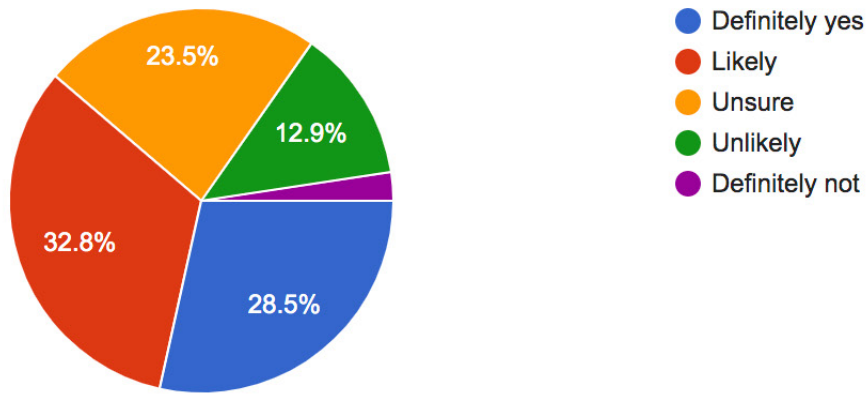

2. What percentage of your students are currently learning in virtual/remote (not hybrid)

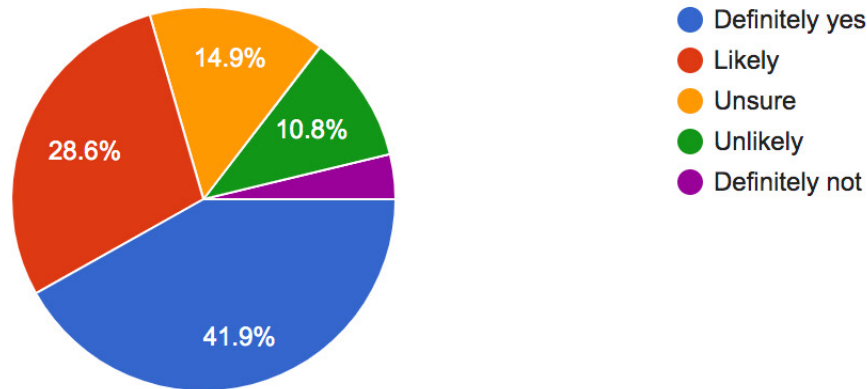

3. What level do you work in?

4. Do you anticipate an increase in opt-outs/non-participation?

5. Do you see remote learning participation disparities among historically marginalized groups of students (e.g. language, race, economic status)?

7. If you have a strategy for this year's spring testing that is particularly innovative or you expect to be effective, we would love to hear from you. Please share your ideas here and include your name, title, and district so we can provide proper attribution.

The following table [linked here](#) includes strategies/ideas shared to date.

8. Do you feel there should be a waiver on test participation accountability reporting for Spring 2021 testing?
